The data contained in this report represent only shipments from the United States and do not include UNRRA material procured in Canada, Latin-America and other contributing member countries for direct shipment to liberated areas. Excluded from this report are civilian supplies originally exported from the United States by the armed forces and by other United States Government agencies and subsequently purchased and distributed by UNRRA for civilian relief purposesin liberated areas. The value of used clothing appearing in this report is the estimated value of clothing made available as gifts or obtained as the result of clothing collections (for which no expenditure was made by UNRRA) plus the amount expended by UNRRA for inland shipping, sorting, cleaning, baling and warehousing. Title to the commodities included in this report is held by UNRRA at the time of exportation. In those cases, where UNRRA turns used clothing or other commodities over to relief agencies or foreign government representatives in the United States for exportation, the material is excluded from this report but is included in total export statistics. Shipments of this type have consisted chiefly of used clothing.
